

Information Systems Science and Technology

MANAGEMENT INFORMATION SYSTEMS

- Business Management Information Systems
- Business Management Financial Systems
- Financial Data Bases Organization

COMPUTER COMMUNICATION NETWORKS

- Secure Communication Networks
- Software Defined Radio Design
- Digital Signal Processing Algorithms

Translation and Technical Verification English <<>> Spanish

- *Engineering Specifications, Technical Documents, Patents*
- *Interpreter Services supporting Bilingual Negotiations*

Consulting Services

Michael A. Mayor, MSE, PE

Management Information Systems

Analysis, Design, Development and Maintenance of Business Data Bases

- **Business Data Base Design, Development and Maintenance**
- **Secure, Encrypted Data Bases**
- **Business Plans Analysis and Development**
- **Key Performance Indicators (KPI) Development**

Digital Signal Processing Algorithms

Analysis, Design and Development of Digital Signal Processing Algorithms (DSP)

- **Digital Signal Processing Algorithms Design and Development**
- **Software Defined Radio for Digital Communications**
- **Digital Image Processing**
- **DSP Algorithms for Communications and Signal Processing**

Computer Communication Networks

Analysis, Design and Development of Secure Communications Systems.

- **Creating and Reviewing Specifications for Secure Wireless Networks**
- **End-to-End System Performance Analysis**
- **Radio Frequency (RF) propagation Modeling and Simulation**
